Barry Phillips Builder, Inc. has been forming homebuilding relationships with clients since 1985. Founded by Barry Phillips on the philosophies of honesty, integrity, and hard work, Barry Phillips Builder has grown into one of the most trusted names in the construction industry of North Alabama. A financially strong company with a proven track record of superior performance, Barry Phillips Builder believes that a quality home is defined by superior construction and proven products. His guiding principle is its customers deserve only the best when making the single largest investment of their lives - the best workmanship, the best materials, and the best service.

Barry is very "hands on" during the construction process and understands the importance of being on the jobsite and working closely with subcontractors. The quality of the homes constructed reflects a sense of value and pride in the job that has been done. These are time-honored values that are important to us and we believe they are important to our homeowners as well.

*Put our team to work for you today and your dreams of a new home
CAN BECOME A REALITY!*
